Response to Amendment

The reply filed on 11/2/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant has failed to elect patentably distinct species from each of Group A, Group B and Group C. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

According to the outstanding restriction, applicant is required to elect one embodiment from each group A,B and C. Therefor applicant should elect one figure illustrated in each group to satisfy the outstanding requirement. Applicant's response should include an elected figure from Group A, an elected figure from Group B and an elected figure from group C. Thus far applicant has only elected a figure from Group A and has failed to select a figure from each of Group B and C. Such requirement was set forth in the previous office action as reprinted below.

This application contains claims directed to the following patentably distinct species:

A) Graft: figure 1;13;14;24;25; and 26

B) Anchor: figure 2; and 3

C) Mating Structure: figure 5;6 and 7.

. The species are independent or distinct because in each subsystem, the separate embodiments exhibit features/elements rendering each patentably distinct.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Such election should include one feature from each of groups A; B; and C. (ie. applicant should choose one figure from each of group A; B; and C.) Currently, no claims are generic.
